

CREATE. BUILD. GROW.

Building Digital Solutions for a Better Tomorrow.

TECHNOLOGY • INNOVATION • GROWTH

About Us

Who We Are

We are a professional digital solutions company focused on helping businesses build, grow, and strengthen their digital presence. At Urlwebwala LLP, we bring together expertise in web development, app development, eCommerce, UI/UX design, branding, digital marketing, and technology to deliver reliable, creative, and result-driven solutions for businesses of all sizes.

We believe every business has a unique vision, and our role is to turn that vision into meaningful digital experiences. From creating a strong digital foundation to improving visibility, engaging customers, generating opportunities, and supporting long-term growth, we develop solutions that are aligned with your business objectives and built for real-world impact.

Our approach is driven by creativity, technology, collaboration, and transparency. We take the time to understand each client's requirements, challenges, and goals before creating solutions that are practical, scalable, and tailored to their needs. Whether it is building a new digital product, strengthening an existing platform, or creating a complete digital growth strategy, we focus on delivering quality at every stage.

At Urlwebwala LLP, we bring technology, creativity, and marketing together to help businesses build better, grow smarter, and move forward with confidence.

From The Directors

What we value and how we work, clear vision, creative thinking, technical expertise, and reliable execution.

Mr. Guddu Giri

FOUNDER & DIRECTOR – Urlwebwala LLP

Guddu leads Urlwebwala LLP with strong expertise across modern web technologies and development. He focuses on building scalable, high-performance digital solutions and turning complex business requirements into practical technology-driven experiences.

Mr. Ravish Giri

CO-FOUNDER – Urlwebwala LLP

Ravish contributes to the company's growth through strategic planning, coordination, and business development. He works closely with the team and clients to ensure smooth execution, strong collaboration, and consistent delivery of digital projects.

What Do We Do?

Tech Solutions

1. Custom Software Development

Tailored software solutions designed around your unique business requirements and workflows. Secure architecture, scalable performance, and reliable technology built for long-term growth.

2. Web Development

Modern, responsive, and high-performance websites designed around your brand and business objectives. Fast loading, secure, user-friendly experiences that build credibility and drive better engagement.

3. Mobile App Development

Powerful Android and iOS applications designed around real user needs and expectations. Intuitive navigation, reliable performance, and scalable technology for growing digital products.

4. IoT Solutions

Connected devices, sensors, and systems working together through intelligent technology. Real-time monitoring and automated processes turn connected data into practical business insights.

5. API Development & Integration

Secure connections between applications, business platforms, and third-party services. Reliable data exchange keeps your systems connected and creates a more efficient digital ecosystem.

6. Cloud & DevOps

Scalable infrastructure for modern applications with reliable deployment and management processes. Better monitoring, performance, security, and scalability keep technology ready for changing business needs.

7. UI/UX Design

User-centered digital experiences focused on clarity, usability, and meaningful interactions. Every screen and interaction serves a clear purpose, creating products that are simple and enjoyable to use.

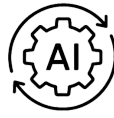

AI Automation

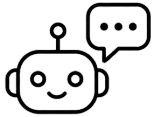

1. AI & Machine Learning

Intelligent technology designed to solve complex business challenges through data. From predictive insights to smart decision-making, turn business information into measurable value.

2. AI Automation

Intelligent automation for repetitive business processes that consume valuable team time. Reduce manual effort, improve accuracy, and streamline operations for greater productivity.

3. AI Chatbots & Virtual Assistants

Intelligent conversational systems for customer support, lead qualification, and assistance. Instant responses around the clock while reducing routine workload for your team

4. RPA & Workflow Automation

Automated solutions for repetitive and rule-based processes across business operations. Reduce errors, improve turnaround time, and allow teams to focus on higher-value work

5. AI-Generated Video Production

AI-powered video production for modern advertisements, reels, explainers, and campaigns. Faster creative workflows with content tailored to your brand identity and marketing objectives.

Business Systems

1. ERP Solutions

Connected business operations managed through one centralized and intelligent platform. Finance, sales, inventory, purchasing, and workflows stay organized for better visibility and control.

2. Vendor Management System

Centralized management of vendor information, documents, communication, contracts, and payments. Organized supplier workflows improve visibility and make procurement operations more efficient.

3. HRMS Solutions

Complete employee management solutions covering attendance, payroll, leave, recruitment, employee records, and performance. Streamline HR operations and give businesses better visibility and control.

4. CRM Solutions

Centralized management of leads, customers, sales activities, conversations, and follow-ups. Clear customer information at every stage helps teams build stronger and lasting relationships.

5. E-Commerce Development

Complete online shopping experiences covering products, payments, orders, and customer accounts. Smooth navigation and thoughtful user journeys help businesses attract, engage, and retain customers.

6. School & College Management

A connected platform for admissions, student records, attendance, fees, and examinations. Better coordination between administrators, teachers, students, and parents simplifies daily operations.

Growth Marketing

1. Business Consulting

Practical strategies for identifying business challenges, opportunities, and areas for improvement. Clear direction across planning, processes, and growth supports smarter and more confident decisions.

2. SEO

Strategic search optimization focused on visibility, relevant traffic, and long-term growth. Technical improvements, valuable content, and better search presence bring qualified opportunities.

3. Social Media Marketing

Strategic social media campaigns built around your brand, audience, and business objectives. Consistent content and meaningful engagement strengthen visibility and build audience trust.

4. Google & Meta Ads

Targeted advertising campaigns designed around your audience, goals, and available budget. Continuous performance optimization improves reach, lead quality, and advertising efficiency.

5. Content Marketing

Purpose-driven content that informs audiences, builds credibility, and strengthens brand authority. Blogs, campaigns, and social content aligned with audience needs create meaningful engagement.

6. Graphic Design & Branding

Distinctive visual identities designed to communicate your brand clearly and consistently. From logos and brand systems to marketing creatives, every visual strengthens recognition and trust.

7. Product Photography & Video

Professional product photography and video content designed to showcase products clearly and attractively across websites, marketplaces, social media, and digital campaigns.

8. Influencer Marketing

Strategic creator collaborations aligned with your audience, industry, and brand positioning. Relevant partnerships increase visibility and introduce your products to new audiences naturally.

This Is Just The Beginning

— We Build. We Grow. We Create Impact. —

A glimpse of the brands and businesses we've helped through technology, creative design, SEO, and digital marketing creating stronger digital presence, meaningful engagement, and sustainable business growth.

Vision

To become a trusted technology and digital growth partner, delivering innovative solutions that create meaningful business impact. We aim to build lasting partnerships, understand every client's unique needs, and turn ambitious ideas into practical, scalable, and measurable success.

Compassion

We care about people, communities, and the positive impact we create through our work.

Why Us?

End-to-End Digital Expertise

From technology and AI to digital marketing and business growth, our multidisciplinary expertise brings everything under one roof. This means fewer dependencies, smoother execution, and one connected approach from idea to implementation

From technology and AI to digital marketing and business growth, our multidisciplinary expertise brings everything under one roof. This means fewer dependencies, smoother execution, and one connected approach from idea to implementation

Business-First Approach

Innovation That Creates Impact

Modern technology, AI, automation, and creative thinking come together to build smarter ways of doing business. We continuously explore better solutions and new possibilities to help businesses stay relevant in a rapidly changing market.

Our relationship does not end when a project is delivered. We believe in clear communication, reliable support, and continuous improvement. As your business evolves, our solutions can evolve with it, creating a partnership built around long-term growth and success.

Long-Term Partnership

Key Milestones

2026 – Urlwebwala LLP

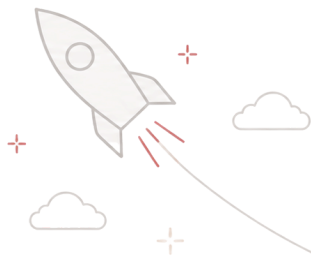

A significant milestone in our journey as Urlwebwala LLP was officially registered, marking a new chapter in our growth and commitment to delivering complete digital solutions. With expertise across web development, app development, eCommerce, UI/UX, branding, digital marketing, automation, and emerging technologies, we continue to build solutions that help businesses grow in the digital era.

2025 – A New Chapter Begins

DiginexAi and URLWEBWALA joined hands in collaboration, bringing together technology, Artificial Intelligence, automation, digital expertise, and business-focused thinking. This collaboration marked an important step toward delivering more comprehensive solutions under one vision.

2023 -Building Strong Foundations

With every project came new experiences, ideas, and opportunities to grow. Our focus expanded from individual solutions to creating more structured digital experiences aligned with the evolving needs of businesses.

2026 – Tech & Growth

Today, the journey continues with a complete approach covering IT, Artificial Intelligence, automation, digital marketing, and business consulting. The focus is on helping businesses move from ideas to impactful digital solutions and build a stronger foundation for the future.

2024 - Expanding Our Capabilities

The journey continued with a broader technology ecosystem and a stronger focus on solving complex business requirements. New capabilities and evolving technologies opened the way for more ambitious digital solutions.

2022 - The Journey Begins

URLWEBWALA began its journey with a clear focus on building reliable digital solutions for businesses. The foundation was built around technology, creativity, and a commitment to delivering practical solutions that create real value.
